LEAVES WEALTH TO LADY FRIEND

Pierre Lorillard's Will Reveals His Life's Romance.

TO MAKE CONTEST

Relatives Declare That Mrs Lillie Allien Shall Not Have Rancocas Farm.

A STRANGE BEQUEST

New York, July 15.—T. Suffren Taller, son-in-law of the late Pieree Lorillar,d has confirmed the announcement that Mr. Lorillard's wi'l would be contested because of a bequest to a woman friend, Mrs. Lily Allien of 11 East Thirty-first street, who is one of the chief individual legatees under the millionaire's will. She gets the princely Rancocas stock farm, worth not less than $500,000.

Twenty years ago Pierre Lorillard was possessed of $15,000,000 of $20,000,000. Today his estate has diminished to less than one-fourth of that sum. On Mrs. Allien Mr. Lorillard has lavished wealth as well as affection. The gift of Rancocas to the beautiful woman is regarded by the friends of both as a mere bagatelle. The beautifully equipped house in which she lived, it is understood, was a gift to her outright from Mr. Lorillard. It contains works of art, a library and a collection of antiques that bring its value, with its contents to not much less than $300,000.

Life Romance Revealed

Pierre Lorillard's life romance is revealed in his strange will Who Mrs. Allien is has been sorrowfully known to the Lorillard family for years, and knowing her, the family emphatically declares that she shall not have Rancocas.

Mrs A'lien is a beautiful woman. She is tall, with a charming figure; she has long wavy brown hair and great brown eyes. She was born in Orange, N. J., about thirty-three years ago.

In the summer of 1891, she was ways one of the introduced to Mr. Lorillard, always one of the most gallant of men. Mr. Lorillard fell in love with her beauty, vivacity and grace. Soon after that she went on a long yacht cruise with him. From that time Mr. Lorillard was rarely separated from her. Protests by his family had no avail. Mrs. Allien was his companion until his death.

A Strange Wedding

Four or five years ago she convinced Mr. Lorillard that she would wed an Englishman, Lewis Allien, little known here. Pierre Lorillard was present and acted as present and servants acted as witnesses and audience.

When the ceremony ended the bride coldly nodded adieu to her husband at the church door, entered Mr. Lorillard's carriage at the church door and was driven away. Mr. Allien caught a train for the west and, it is reported, he has obligingly died.

Wife Kept Away from Death Bed

Mrs. Allien had been abroad with Mr. Lorillard for eight months. His health had been such that in truth she was his nurse. Necessarily Mr. Lorillard's relatives do not wish even now to admit it, but Mrs. Allien was at his bedside when his life went out; hers was the last face he looked upon, and her presence kept away the wife, who relenting, was wil'ing to take a last farewell of her husband.

MADE A LONG TRIP TO STEAL HIS CHILD

An Illinois Man Returns From South Africa and Tries to Abduct His Daughter.

Carbondale, Ill., July 15.—With a charge against him of kidnapping his own chi'd, Marion Absher was arrested late last night at Marion on a telegram from his wife.

About seven months ago Absher and his wife parted, he going to South Africa and she remaining in Murphysboro with her daughter Goldie. Absher, unable to remain longer from his child, returned, and yesterday took the girl and drove to this city. From here he started south over the Illinois Central Railroad and was arrested at Marion.

The child is a beautiful girl, and prepossessing in her manner. She seems to have a deep affection for both parents.

AT REST FOREVER FROM EARTH'S PAIN

C. W. Wixom's Remains Were Brought Home and Laid in the Final Resting Place Yesterday.

Funeral services for the late C. W. Wixom, who met a tragic death at Calmar, Ia., were held from the home of his parents, Mr. and Mrs. E. P. Wixom, yesterday afternoon three o'clock and were largely attended by sympathizing friends of the bereaved family. Words of consolation were spoken by Rev. Robert C. Denison pastor of the Congregational church, and the song service was sweetly rendered by Mrs. Christine Hawley. Re'atives of the deceased man officiated as pall bearers.

Mr. Wixom was not killed by the cars as was at first supposed. He was at work for the railroad company and was engaged in building a coal chute. He was working on the ground. A board above him slipped and in trying to keep it from falling the workman, who was employed above, knocked off another heavy plank, which fell, striking Mr. Wixom forcibly on the head and killing him. The remains arrived in this city yesterday morning at 10:30 o'clock, accompanied by J. R. Lamb, who went to Calmar to take charge of them.

Funeral of Mrs. Rooney

At St. Patrick's church, this morning at 9:30 o'clock, the last tribute of respect was paid to the memory of the late Mrs. Sarah Rooney. It was a largely attended funeral and there were many beautiful flowers. Dean E. M. McGinnity conducted the impressive services at the close of which the remains were taken to Mount Olivet' cemetery for interment. The pall bearers were three sons of the deceased, Leo, Jerome and Legora Rooney, and three nephews. John M. Diamond, L. J. Diamond and John M. Kehoe.

BIG EXCITEMENT ON BOARD OF TRADE

Enormous Advances in Price of Grain Are Caused by Reports of Damage to the Crops.

Chicago, July 15.—More excitement than characterized the last day of the big Phillips deals marked the opening on the board of trade this morning. Reports of damage to the crops and lack of rain in the grain growing sections started a mad scramble to buy as soon as the market opened and prices went up with a rush. September corn jumped from 50¼ to 52, oats from 31 to 32 and wheat from 67¼ to 68¾; trading at the advances was enormous.

Toward the close heavy selling by elevator interests on no damage and rain reports from Iowa, and Nebraska, caused decline, corn going as low as 49¼ and closing at 49⅜

A GROCER'S CLERK HAS HIGH AMBITION

Will Go to England and Claim British Throne—Says His Mother is Victoria's Elder Sister.

Wilmington, Del., July 15.—Chas. Blanco, a grocer's clerk announces his intention of going to England and claiming the British throne. He says his mother is Victoria's elder sister and was entitled to the throne. Proof to this effect has just been secured.

A PARACHUTE FALL RESULTS IN DEATH

Prof. Zeno Falls Two Hundred Feet—Bride of a Few Days Also Injured by a Fall.

Springfield, O., July 15—Paul Hague who is known as Profesor Zeno, an aeronaut, was fatally injured yesterday afternoon at Island Park, falling 200 feet. The parachute failed to open and he fell into a cornfield. Hague married last Thursday, Mabel Brandon, also an aeronaut, who was seriously injured by falling from a balloon at the fair grounds in this city on June 22.

RECORD IS BROKEN BY THE LEAGUERS

Ten Thousand Epworth Leagures in San Francisco and Every Hour Sees Hundreds More.

San Francisco, Cal., July 15.—Ten thousand Epworth Leaguers are now in the city and every hour sees the arrival of hundreds more. The crowd already breaks the record of the Pacific coast conventions. The first session of the convention is on Thursday.

MANY AFTER HOMES IN OKLAHOMA LAND

Texans are Rushing There by Hundreds to Secure Homes—Trains are Going in Sections.

El Reno, Okla., July 15.—The trains are reaching the Oklahoma country in sections, carrying thousands of fresh homeseekers. Texans are rushing here by hundreds to secure homes.

DAMAGE DONE TO CORN CROP

Secretary Wilson Thinks Recent Reports Exaggerated

Washington, D. C., July 15.—The extent of damage to the corn crop in the western states on account of the drought will be made by the agricultural department tomorrow. Secretary Wilson is inclined to think that the recent reports of the damage is exaggerated.

Kills His Wife and Himself.

St. Joseph, Mo., July 15.—Robert Prange, whose business cards represent him to be the manager of the Schlitz hotel at Omaha and manager of the Schlitz brewery agency at that point, murdered his wife near Lake Contrary and then committed suicide.

Woman Sentenced to Hang.

Louisville, Ky., July 15.—Julia Trabue, a negress, was sentenced to be hanged Nov. 15 for stabbing and killing her lover.

BIG STRIKE OF STEEL WORKERS WENT INTO EFFECT THIS MORNING

By It 75,000 Men Are Effected—Promises To Be the Greatest Labor War in History of American Industries—Resembles Homestead.

Pittsburg, Pa., July 15.—What promises to be the greatest labor war in the history of American industries went into effect this morning with the strike of the steel workers in three big branches of the billion dollar steel trust. These are American Steel companies with 28,000 men; American Steel Hoop company with 24,000 men; American Tin Plate company with 23,000 men.

Thus at the outset 75,000 men are affected and should the strike extend to all the other plants of the combine a quarter of a million workers would be idle. Around the headquarters of the Amalgamated association a general air of jubilation is noticed. With but one possible exception all of the mills ordered out on the strike on Saturday obeyed the call. President Shaffer is confiednt that the Amalgamated association is a success. There is a strong showing on this preliminary suspension work that a general strike of all of the mills in the United States Steel corporation will noth be necessary. This strike bears resemblance to the historic Homestead strike in that unionism and not wages is the question at issue. The association insists upon unioning all plants of the three companies in question but manufacturers refuse to grant this demand.

More Men May Be Called Out

Pittsburg, July 15.—Shaffer is resting on his oars today and announces that he will make no new move for a day or two. He says that the plans are laid for the future but that the time for making them known has not arrived. He intimated that men employed by the National and Federal companies would be called out in a few days if it was found necessary. Shaffer said that the association is stronger financially now that it had been for years. Tin Plate men have had an unusually prosperous season and they are thought to be practically independent, therefore they will not have to share in the benfit fund for some time at least.

Effects Felt in London

London, July 15.—Steel Trust stock fell six points today on the strike news. This caused a break in all American stocks. Declines ranged to 3 points.

Strike Affects Steel Stocks

New York, July 15.—U. S. Steel stocks this morning opened 3 points off from Saturday's closing.

ELIJAH DOWIE RAVES AND ROARS; CONSECRATES ZION CITY TO OWN USE

Expected Throng From Chicago Did Not Appear at the Initial Service—Anyone with Money Gets a Warm Welcome.

Chicago, Ill., July 15.—The site of Zion City, the future dwelling place of the followers of John Alexander Dowie was consecrated to the "true faith" yesterday by Dowie himself, when the Zion camp meeting was opened. The gates of the "holy city" will be opened at 10:30 o'clock this forenoon.

Dowie had planned to make a great display yesterday. He expected to have 20,000 of his followers to be present, and the canvas tabernacle had been arranged to accommodate the host. When Dowie arose at the meeting and confronted an audience of 3:000 he was visibly angry. But that did not deter him from giving Zion lots a boom that he hopes will redound to his pecuniary advantage.

Several hundred disciples went out to the site of the new city on Saturday and yesterday morning several train loads were carried out over the Northwestern road. Dowie busses and rude farm wagons carried the Zionites from the little station to Camp Esther at 15 cents each. Hundreds of the Zion badge chose to walk and during the entire morning the wide board walk was crowded with baggage laden pilgrims.

City Yet to Be Built

What they saw when they arrived at Zion was not a city, but a rolling expanse of prairie, with here and there a clump of trees. The dust from Shiloh boulevard filled their clothing as they rode or walked to camp in the woods a mile west. There are a few buildings at Zion set out on the knolls far from the shade and roadways. These form the nucleus of what Dowie believes will in a night become a bust'ing city.

On the south side of Shiloh boulevard and west of Elim avenue stands the land office. This building is fitted up in splendid style and today will become the principal seat of activity in Zion City. H. Worthington Judd will sit at a great roll top desk and transfer the 1,100 year leases to all whob ring enough money to pay for a small lot. In an adjacent room Dowie's bank will be opened at he same time. A vault with a massive door has been placed in this room and here will be hidden the proceeds of the parceling of the Dowie farm.

And You Must Have Money

Fifty feet west of the land office is the Zion photographic studio, where the faithful can secure likenesses of themselves at so much per dozen. The proceeds go to Dowie. Still farther west in the woods is a lemonade stand where the divine healer will quench the thirst of the disciples, providing they have the change. Nothing is free. If the followers want to camp they must rent a tent bearing the official Dowie stamp. If they want to ride they must ride in Dowie wagons. If they eat they must pay Dowie for everything they get. This is what 5,000 people went to Zion City to do yesterday and the programme was carried out without a hitch.

The religious services began early yesterday morning. At 6:30 o'clock Dowie headed a procession of 300 guards and disciples around the site of the temple, which at present is only an air castle. Later in the morning the elders conducted service in the tent while Dowie went to his Zion residence to rest and prepare for the afternoon. At one o'clock the Zion band marched to Dowie's home. With them went 150 guards and 1,000 disciples. The patriarch came from the house accompanied by Overseer Jane. They entered the shining carsion to move. With a fan-fare of trumpets and a roll of drums the procession turned into Elim avenue and started towards the tabernacle. Behind it came the guards and Dowie's carriage. The sweating disciples brought up the rear.

The Choir Sang for Them

At the tabernacle the white-robed choir of 600 voices sang for them as the prophet entered. He and Overseer Jane were escorted to the platform by a number of chosen guards. The two then began a critical survey of the audience. The choir then gave a song in which the name of Elijah was frequently repeated. Following this Dowie arose and paraded several times across the platform.

"The mounted guards will compel everybody standing to come under the tent and be seated, or to go back in the woods," Dowie began. "I have an important message to deliver today and the responsibility will not permit of any disturbance."

The guards did not immediately respond and Dowie flew into a rage. "Zion!" he shouted, "enforce the order! Deep thought lies in what I shall say, and I must not be disturbed."

The guards rode around the tent and many people disappeared in the woods. A few who wore Dowie buttons went back under the tent and sat down. Then with a strut across the platform Dowie began telling of the wonderful city to be thrown open to Zion today. He gave a history of his divine healing and spoke of his messages from God. He recited the history of his dealings with the press and said that antagonism to him meant failure to the opponent.

Editors Are Doomed

"Every editor who at first started to fight me is now dead, but I will live to defeat their successors. I have founded a city that shall shame the sinful who attack me. Here pork pilsl shall be unknown. The words tobacco and beer shall not be heard within the gates. Zion shall not be our only city. I have just received a letter from a sister in Switzerland by which she gives me a magnificent palace in which to found my contemplated Zion of Europe. Thus we shall establish cities throughout the world and become a world-power."

The "doctor" then called upon a number of his disciples to testify to his ability as a healer Next he bade the audience rise, and he catechised it to prove that he never took money from his people. There was no hitch in this part of the performance. When the auditors were seated he again began to tell of the new city.

While giving a glowing description of the place he saw a large insect crossing the floor in front of him. He paused in the midd'e of a sentence strutted toward the intruder and attempted to put his foot upon it He took two or three hops after it, set his foot upon it, and paraded back to the center of the stage, and resumed his discourse.

When Dowie finished speaking he asked how many would stay in Zion City until ten o'clock last night. Not one answered. He repeated the question twice, but not more than a dozen signified their intention of remaining within the gates. This displeased the leader and he told them sharply that they would be able to return to Chicago at six o'clock. Several arose to go and Dowie told them to be seated and called for the guards to allow no one to disturb him until he gave the word, which he did at once.

riage and Dowie ordered the proces-

Turfman Dick Liddell Is Dead.

Cincinnati, O., July 15.—Dick Liddell, aged 35, a prominent horseman of Nevada, Mo., died of heart trouble at Latonia, Ky. He was one of the best known turfmen in the west and owned a big stable of racers. He had several of his horses at the Newport track.

MICHIGAN MURDER CLEARED UP

Horace Peters, Slayer of Peter Smith, Ends His Own Life.

St. Joseph, Mich., July 15.—The mystery surrounding the assassination of Peter Smith on his farm in Bainbridge township Thursday afternoon has been cleared up by the finding of the lifeless body of Horace Peters, a neighbor, who had been suspected of committing the deed. Peters was seen to leave his home, carrying a shotgun, early in the morning of the day that the murder was committed. He waited in the field for his victim, and as Smith passed him he sprang up and shot him to death. Peters escaped into the woods, which has been surrounded by deputy sheriffs and a mob of citizens ever since. Fearing sure death at the hands of the mob, Peters returned to the edge of the woods, within 100 rods of the scene of the murder, and killed himself. The body, penetrated with several buckshot, was found under a cluster of small maple trees by Deputy Sheriff Pearal at noon yesterday.

PAINTERS' UNION NOT INVOLVED

Statement That Its Members Are Interested In Local Carpenters' Strike Is Denied.

The following communication which has been sent to the Gazette for publication by William G. Smith, recording secretary of Janesville union, No. 177, Brotherhood of Painters and Decorators of America, explains itself:

"Editor Gazette—In Sunday's issue of the Recorder, I notice that in the report of the labor troubles of the contracting carpenters and their men the Recorder man makes a statement that the local painters' union is involved and classed in the carpenters' dispute.

"As Recording Secretary of the Painters' Union of Janesville, I most emphatically deny that statement and will also say that the relationship existing between the employers of our craft and the men is of the most cordial nature The Recorder man evidently sought his information from outside sources, or has been imposed upon by some person or persons interested in the carpenters' dispute and trying to serve their interests by making false statements regarding other local unions.

"This would have been sent to the Recorder if that paper issued a Monday edition, but Union 177 of Painters and Decorators takes the earliest opportunity of vindicating any expressions of slanderers on their character, the Recorder man notwithstanding.

"WM. G. Smith,
Recording Secretary"

SEVEN HUNDRED PERISHED IN JAVA

Terrible Devastation and Loss of Life by the Outburst of a Volcano in Java.

Tacoma, Wash., July 15.—Oriental advice give the details of a terrible devastation and loss of life caused by the outburst of the Kiowet volcano in northern Java last month. Torrents of lava and hot mud flowed amid showers of ashes and stones. Seven hundred natives and about a dozen Europeans perished. Several scores of great coffee plantations were destroyed.

Lively Run on Bank.

Peru, Ind., July 15.—The Bank of the Miami County Loan and Savings Association successfully withstood a lively run Saturday. As the result of uncertain rumors depositors became alarmed and they rushed to the bank to draw out their money. The crowd increased, but no hesitancy was shown and no depositors met with refusal. The strength of the concern was not tested to its fullest. Possibly 300 out of 2,300 depositors applied for and got their money. The total deposits aggregated $315,000, and the amount of the withdrawals reaches only $40,000.

Children Held for Crime.

Derby, Conn., July 15.—Three young girls were before Judge Clark in the city court charged with burglary. They are Mary Chinchilla, aged 8; Ida Chinchilla, aged 10; Anna Saprano aged 10. The girls are charged with breaking into the house of Captain D. L. Durand of this city. The Fourth of July, when the Durand family were at the shore a window in the rear of the house was opened by breaking a pane of glass and raising the catch. The house ws ransacked from top to bottom and several hundred dollars worth of jewelry and clothing was taken away.

White Caps Lash a Barber.

Vincennes, Ind., July 15.—Bert Potts, a barber of St. Francisville, was taken out at night by sixty White Caps and given fifty lashes with a cowhide on the bare back. After the severe castigation he was warned to leave the country and never again return on the penalty of death. Potts had fallen into dissolute habits and, it is alleged, had deserted his family, mortgaged his place of business and wasted the money on characters of bad repute. Bleeding and only half clothed when released, he started on a run and it is said he left on the first train for St. Louis

CARPENTER WORK AT A STANDSTILL

MEMBERS OF THE CARPENTERS' LOCAL UNION OUT.

The Demand for Nine Hours' Work and Ten Hours' Pay Refused by the Contractors' Union—Men Were Told Saturday Night That They Need Not Come to Work Today.

As far as carpenter work is concerned building in Janesville is at a standstill. Over two hundred carpenters are idle today on account of a demand for nine hours' work and ten hours' pay.

Saturday evening when the members of the local carpenters' union received their pay for the week's work they were notified that they need not report for work this morning. In this way the contractors put themselves on record as refusing to accede to the demands of the carpenters for shorter hours and the same pay.

On July 5 a meeting was held by the carpenters' union at which a nine hour day with no change in pay was passed. The resolution was to have taken effect today.

The contractors held a meeting since that time, and decided that they could not accede to the demands of the men. At the present time they are working on contracts, that in figuring the cost they figured on ten hours as a working day. They claim that at this time they could not grant the demands of the men without a serious loss.

They ask that hte men finish up the work they are now working on at a ten-hour rate, then when any new contracts are taken they will be able to figure on a nine-hour basis.

Saturday night when the men were paid off they were asked if they were members of the local union and if they were they were informed that there would be no work for them this morning if they intended to stand by the resolution passed by the union.

Most of the contractors are confident that the men will see the injustice of their demand just at this time and will go on and finish up the work already on hand. The contractors are not much worried over the situation, as in most instances there is no time limit on the buildings they are at work on. In nearly all of the buildings where a time limit has been fixed the work is so far advanced that a litt'e loss of time will not make much difference.

There are still some men at work on all of the jobs as not all of the men employed are members of the local union. It is only members of the union that are affected by the strike, the others keeping at work at the old scale.

The rate paid by the contractors is from $2.50 a day down. Among the union men are many carpenters that are not what are called first-class workmen, but who demand full pay simply because they belong to the union.

The contractors claim that they can stand out as long as the carpenters and will not grant their demands on the present work.

The work on St. Mary's church is going on as if nothing had happened as the work is being done by an outside contractor and the most of his men are not members of the local union.

Among those who are affected by the lock-out are John Cullen, John P. Wright, Blair & Sommers, Colling & Wray, A. Kreuger, David Stewart and Joe Denning. These men are all employed on work that should be rushed to completion at once, but the contractors say they can stand out for some time without injuring their chances to complete the jobs on time.

EPWORTH LEAGUE TOURISTS ROBBED

A Party of Twenty of the West Bound Excursionists Victims of Thieves at Colorado Springs.

Glenwood Springs, Colo., July 15.—A thoroughly organized gang of pickpockets operating at Colorado Springs is responsible for a party of about twenty Epworth Leaguers becoming stranded here. Men and women alike have been robbed, not only of every cent they had with them, but of railroad tickets as well, and unless the railroads will issue tickets back home on their proof of having been purchased and paid for a ride to San Francisco and back they will be compe'led to ask aid from the county authorities. In at least ten instances thieves even secured their victims' trunks on the stolen baggage checks.

Among those robbed are Dr. J. H. Wilson and wife and daughter and Mrs. H. R. Harrington of Dover, Del. In the crush at the Rio Grande depot Dr. Wilson's wallet, containing tickets for the party, drafts on San Francisco banks, and checks for trunks were stolen. The loss was not discovered until the conductor collected tickets. Collections were taken up on the train to supply the immediate wants for those entirely destitute.

Major S. K. Hopper, general passenger agent of the Denver and Rio Grande railroad, is authorized to furnish passes to Ogden to stranded passengers who desired to continue their journey west.

Our Corn Exports.

Last year the corn exports of the United States were 213,000,000 bushels, or 10 per cent of the total crop. Europe took 193,000,000 bushels, against 24,000,000 bushels in 1890.

VACATION PLANS MADE BY PASTORS

REST TIME AT HAND FOR BUSY MEN OF THE PULPIT.

Rev. and Mrs. J. T. Henderson Leave Tonight for Their Month's Outing—Rev. Pence May Preach Here During Their Absence — Other Church Items of Interest.

The time has come when all busy people are thinking eagerly of the summer vacation and the effect is most evident in the attendance at the various churches. Pastors are among the busy people whose thoughts are turning from the round of daily duties and almost without exception they are planning for a restful time at some secluded lake or country resort.

Rev. J. T. Henderson is the first pastor to take his vacation leave. He and his wife will leave this evening for White Bear Lake, a charming Minnesota summer resort where they will be the guests at the cottage of a friend. They will be absent from home about a month, returning in time for Rev. Henderson to occupy his pulpit and preach the sermon at the union evening service, August 11. During Rev. Henderson's vacation, the morning services at the Pesbyterian church will be maintained. It is hoped that Dr. —. H. Pence who with his family, will spend a part of his vacation at Lake Kegonsa, will occupy the pulpit one Sabbath. Rev Sanderson, also a former pastor of the church, will probably have charge of the service next Sunday morning.

The other pastors will take their month of play in August Rev. Denison remaining in the city until after the first Sunday in that month. He will spend his vacation at Lake Kegonsa. Rev. Woodside will attend the Delavan Lake assembly which opens July 24, but he will return for the last Sunday in July before taking his regular vacation.

The Sunday schools of the city will take an outing next Wednesday. It will be an extraordinary event. Five churches of the city, the two Methodists, Baptist, Congregational and Presbyterian, unite in chartering a train to Walworth and electric cars thence to beautiful Lake Geneva. Excellent transportation is assured Special rates upon the boats. The price of tickets? Seventy-five cents and all members of the Sunday School under fifteen free! A boat ride, ten cents extra for each adult who wishes to take it, no charge to the children. This picnic is not solely for the Sunday school but for all. The bow constantly bent loses its elasticity. Loosen the string and join in this day of pleasant recreation and pleasant fel'owship. The date? Mark it: Wednesday, July 17th. Train leaves the C. M. & St. P. depot at 8:15 a. m. Lunch baskets checked free and should be at depot at 7:30 a. m.

The Christian Young People's union will hold a social on the Baptist church lawn, Monday evening, July 15. The lawn will be lighted by electricity and all are cordially invited to attend.

The W. C. T. U. meets on Friday afternoon at 3:00 o'clock in the church parlors of the Congregational church. All interested ladies are invited to be present.

Monthly business meeting of the official board of the First M. E. church Monday evening at 7:30 o'clock.

Regular prayer meeting of the First M. E. church on Thursday evening at 7:30 o'clock.

Mid-week service at the Baptist church, Thursday evening at 7:30 o'clock. Topic: Abiding in Christ and What Comes of It. The committee on new members will meet at 7 o'clock, before the service.

The Helpfu' Circle of the Baptist church will hold two meetings this week, one Thursday afternoon at two o'clock in the church parlors and one Friday afternoon at Miss Stoddard's, 205 North Bluff street.

The teachers of the Baptist Sunday school will meet at the parsonage on Friday evening at 7:30 o'clock.

The subject of the mid-week meeting at the Congregational church will be: Some Plans for the Fall to Think of During the Summer. It is perhaps not a good plan to seek to see too far in advance and yet is always well to have definite plans. Life's great business is to meet each duty as it comes, but he who would do the best work must be working toward some end.

Miss Hattie Brown was received into the fellowship of the Congregational church yesterday morning.

During the absence of the pastor, the elders of the Presbyterian church will have charge of the prayer meetings which wi'l be held as usual, Thursday evening at 7:45 o'clock. W. H. Blair will take charge of the church calendar.

The Ladies' Aid society of the Court Street M. E. church will meet on Friday afternoon at two o'clock and a large attendance is desired.

The prayer meetings at the Court Street M. E. church will be made bright and brief during the summer months. The lecture room is cool. Be loyal and be on hand on Thursday evening at 7:30 o'clock.

Pearl Industry is Booming.

The pearl industry of Wisconsin is assuming considerable proportions. Wednesday $20,000 worth of pearls were sold at Prairie du Chien, all of which were gathered from the Mississippi river. In addition to this several button factories are utilizing the shells of clams for the manufacture of pearl buttons.

DYSPEPSIA

is not incurable as many people suppose. Hostetter's Stomach Bitters has never failed to cure the worst cases, It cleanses the system of all impurities, enriches the blood, makes strong nerves and cures constipation, indigestion, biliousness, liver and kidney troubles. A dose before meals will prevent belching or sourness of the stomach. Try it and be convinced.

Creates a Hearty Appetite. HOSTETTER'S STOMACH BITTERS

SUGGEST PRACTICAL CHARITY.

Let the Crippled Boy be Supplied With Artificial Limbs.

The furnishing of artificial limbs, etc., to the poor is a stange'y neglected charity. We do not know if such a systematized benefaction exists in the world. And yet it should exist everywhere. The Federal Government and some of the Confederate States supply artificial limbs and eyes to maimed soldiers. We wonder if this is done by any other government? We see every day boys and men who are prevented from half realizing the possibilities of their lives, because they must stump about on sticks, with poor crutches or with but a single arm. Everybody seems to neg'ect these pitiable wrecks, while ingenuity is exhausted to provide methods of satisfying charitable desires. Why should not the state provide these helps for its crippled folk? This would not be a dangerous form of socialism.—American Medicine.

FITTING TRIBUTE TO J. M. WHITEHEAD

Hudson, Wis., Star-Times Pays Janesville's Popular State Senator a Well Deserved Compliment.

The Hudson, Wis., Star-Times of last week published a large and very fine likeness of Senator John M. Whitehead, of this city, and the following very complimentary tribute to him:

"No man in active public life today commands the respect and confidence of those who know him to a higher degree than Senator John M. Whitehead, of Janesville. He is a self made man, but not the kind who worships his maker, for he is as modest and he is efficient and broad guaged. Poor in purse he is but rich in good abilities, he has given himself the collegiate and practical training which makes him a ripe scholar in his chosen profession, as well as in the current questions of every day life. He is only 48 years of age and it is safe to say he will prove a potent factor in public affairs in this state in the years to come. He has a commanding personality, considerate respect, for the opinions of others and a leader who realizes that reform is a question of growth, not of leaps and bounds. As state senator he commands the respect of his associates by a courteous deference to the views of others. Last year he was brought out as a candidate for governor by the republicans of his locality; but as with McKinley at Minneapolis, time was not fully ripe for his fortunes in that direction. Watch the future of the statesman from Janesville.

John M. Whitehead was born July 29, 1852, on a farm near Hillsboro, Ill. He was educated at Hillsboro Academy, preparatory department of Wabash college, Crawfordsville, Ind., (1871-2), Williston Seminary, Easthampton, Mass. (1872-3), Yale college (1873-77), where he took the degree of A. B. He studied law and was admitted to the bar in Illinois in October, 1880, and to the bar of Wisconsin in September, 1883. He came to Wisconsin in August, 1873, settling at Janesville, where he has since resided. Has been a member of the county board of Rock County, representing the Fourth ward of Janesville. Was elected to the state senate in 1896, and again in 1900, receiving 6,752 votes against 4,438 cast for Alexander Buchanan (Dem.), and 375 for George J. Kellogg, (Pro.)."

B. P. O. E., Attention!

A special meeting of the local lodge B. P. O. E. will be held this evening at 8 o'clock. There will be work and the final arrangements for the Milwaukee carnival will be made. A full attendance is requested.

$13.00 To Buffalo and Return, $13.00 via the Nickel Plate Road from Chicago, for the Pan-American exposition. Tickets on sale daily, good leaving Buffalo up to midnight of the tenth day from and including date of sale. Also tickets on sale daily Chicago to Buffalo and return at $16.00 for the round trip, with 15 day limit, including date of sale. $21.00 Chicago to Buffa'o and return, good for 30 days.

Tickets Chicago to New York and return at special reduced rates. Write Y. Calahan, General Agent, 111 Adams street., Chicago, for full particulars and folder showing time of trains, etc.

For Over Fifty Years.

MRS. WINSLOW'S SOOTHING SYRUP has been used for childre while teething. It soothing the child, softens the gums, allays all pain cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by druggists throughout the whole world

Excursion Rates to Council Bluffs, Via the North-Western Line. Excursion tickets will be sold at reduced rates for round trip, July 15, 16 and 17, limited to return until July 18, inclvlusive, on account of annual Regatta Iowa State Amateur Rowing Asociation. Apply to agents Chicago & North-Western Railway.

Low Rates to Buffalo Exposition via the Nickel Plate road. Also special reduced rates Chicago to New York and return. Three through daily trains with vestibuled sleeping cars and excellent dining car service, meals being served on the American C'ub Meals plan, ranging in price from 35 cents to $1.00. Chicago depot, Van Buren St., and Pacific avenue, on the Elevated Loop.

Write John J. Calahan, General Agent, 111 Adams St., Chicago, for full information and beautifully illustrated and descriptive folder of the Exposition Buildings and Grounds.

THREATENS HOME LIFE OF AMERICA

CLUBS AND SOCIETIES LEAD TO NEGLECT OF FAMILY.

A. E. Matheson Urges the Francis Murphy League to Aid in Preserving the American Home—Rev. S. G. Huey Talks Eloquently at an Interesting Temperance Meeting

An interesting meeting of the Francis Murphy Temperance league was held at the Y. M. C. A. auditorium yesterday afternoon at three o'clock. It was the quarterly meeting to which the ladies were invited and although the audience was not as large as is customary on these occasions, there was a larger attendance than the extreme heat of the day warranted one in expecting.

A. E. Matheson, the president of the league, was in the chair and several gentlemen who were prominent in the work of the organization, sat on the stage with him. The meeting was opened with singing by the audience with orchestra accompaniment, J. C. Kline leading the singing until Archie Crawford arrived.

Fred Holden, the vice president of the league, read the first Psalm after which Rev. W. W. Woodside led in prayer and Mrs. Frank Sadler recited an appropriate temperance selection.

The address of the afternoon was given by the Rev. S. G. Huey, pastor of the Rock Prairie Presbyterian church. In introducing him, President Matheson referred to the debt of gratitude which the league owed Rev. Huey for driving several miles on such a warm afternoon and on such a busy day as Sunday is for ministers.

Rev. Huey spoke eloquently and forcibly and his address was a masterly one. In opening he said the fact of people's presence showed that they were interested in the subject of temperance. He did not intend to speak so much of the evils of intemperance as of the way of escape. There are many societies for the promotion of temperance and all shou'd be encouraged and helped but the only salvation from the liquor traffic lies in the individual. Let the wor kof legislation and of education go on and God go with it, but the real secret of the success of the temperance cause lies in the word, regeneration.

In looking at the mighty task which confronts temperance workers Rev. Huey said the words, "He is able" came to him forcibly. Who is able? Not the drunkard, the tippler nor the moderate drinker. Too many have assured themselves that they could stop the liquor habit when they wished but they have found themselves mistaken. It is not in any man or woman to say, "I am ab'e to save myself," but the one referred to in the text is the one who is mighty to save to the uttermost. The work of grace must begin within. The reason the outer life is not always what it ought to be is because the heart is not right. God must come into the heart, cleanse it from sin and make it like new. He is able to change the trend of disposition and appetite from the direction of intemperance and ruin towards temperance and righteousness. There isn't a man who can overcome the liquor habit by simply signing a pledge or by his own will power. He will not get victory over strong drink until he yields himself to God. He is able to keep man from falling. The secret of man's perseverance, of his being ab'e to stand lies in his putting his hand in God's. He is kept not by his own power but by God's. The doctrine of Jesus Christ is a doctrine of optimism and hope. The devil is not stronger than God. God conquered in the garden and will conquer in the end. He will conquer in man's life if man yield to him.

After Rev. Huey's address, the male quartet sang a very pretty selection. President Matheson then said that it was not his purpose to make a speech but during the past week he had been at the great Cincinnati Christian Endeavor convention and while there he had thought of the Francis Murphy league and wondered if he could not bring home something helpful from the convention for the league. As a result he had two suggestions to make. At the convention many things were said about forward movements for the new century and great emphasis was laid upon the home. The American home is in danger. The people of today live in a complex civilization and many demands are made on their time. The speaker had no criticism to make on lodges, societies and clubs, but they certainly draw people from the home and time should be given to them discreetly. Simple and sincere family life is a source of mighty strength to the children going out from the home. More attention should be given to the family and to the preservation of the home life of America. The second thought was that of good citizenship and the speaker thought both movements in line with the Francis Murphy league.

Al. Smith, one of the most untiring workers in the league, urged the importance of individual practical work by the members and pleaded with them to always show sympathetic interest in the drinking man. His remarks were endorsed by George West who paid a glowing tribute to the league and the great good which it has done for him, and by W. Peters who spoke very briefly.

Rev. J. T. Henderson closed the meeting with benedictory prayer.

Reduced Rates to Monona Lake Assembly at Madison via C. M. & St. P. Ry.

On July 17th and 18th, good until Aug. 3, at $1.60 for the round trip. July 18th to Aug. 2, good until Aug. 3d, at $1.60 for the round trip, on certificate plan. On July 27th and Aug. 2nd, at $1.19 for the round trip. All C. M. & St. P. trains stop right at the grounds.

MAY REPAIRR FIRE LOSSES.

Waukesha Fair Officers May Put Buildings in Shape.

The officers of the agricultural society at Waukesha are considering whether or not to rebuild the fences and stables that were destroyed by Tuesday's fire. The necessary lumber to make repairs, it was stated, by Secretary Frank Harland, would cost about $3,000. The insurance is little if any above a third of this amount, and thus it will necessitate a considerable increase to the debt of the society if the grounds are put in condition for the next exhibition. At the last annual meeting in December the question of discontinuing the exhibition for this year at least was discussed, but the plan was not favored save by a small minority of the members. The present situation, however, may lead to a reconsideration of the question, so far as Waukesha is concerned, to permit the annual exhibition to lapse, and business interests will quite likely see to it that the repairs are made in time for the fair in September

A PLEASANT SURPRISE PARTY.

Friends Pay Mr. and Mrs. N. Clifford an Unexpected Visit.

Mr. and Mrs. N. Clifford and family, who reside on the farm owned by Mrs Mary Emerson, in the town of Newark, were pleasantly surprised last Friday evening by a company of about thirty-five of their friends who paid them an unexpected visit.

The evening was enjoyably spent with vocal and instrumental music, games and plenty of good things to eat. Such a jolly time did the guests enjoy that they did not depart for their homes until the wee sma' hours of morning.

COAL TRUST GROWS LARGER.

Combine Now Seeks to Perfect Monopoly by Buying Railroads.

Cleveland, O., July 15.—Owing to certain expansions of the original plan having been agreed upon, the formation of the soft coal trust may be delayed to give time for the working out of larger plans. The plan now outlined provides for close harmony between the producing and the transportation companies. It now appears that the purchase of the Ohio River railroad by the Baltimore and Ohio was a part of this scheme and perfected control of the soft coal carrying facilities for certain parts of Ohio, West Virginia and the Pittsburg district. The same interests now control, with the assistance of the Morgan holdings, all of the coal-carrying properties in this territory that ship coal to the lakes or to the east. A fleet of ocean-going and lake-traversing vessels is to be collected by the combine that will be distinctly trust boats and steam coals will be carried abroad for sale.

Tones Down Bull Fight.

Omaha, Neb., July 15.—Sheriff Power and deputies attended the bull fight in this city and the result was one of the tamest exhibitions of the street fair season. Several thousand persons gathered to witness the trouble that was expected, but did not materialize. Early in the day the street fair association turned over the bull fight and all questionable concessions to unknown persons and the real fight of the series was expected. Sheriff Powers declared to the new managers that he would stop any fight that looked dangerous to the life of the bull or matador. The spectators showed their disgust over the ruling with hoots and hisses.

Killed by a Quarry Blast.

Quincy, Ill., July 15.—August Newman was blown to pieces and Henry Ernest was seriously hurt by a premature explosion of a blast of five pounds of dynamite at the city quarries. Newman's body was hurled high in the air and parts of it have disappeared. He was 34 years old and leaves a widow and three children.

Rev. Father Cannon of Watertown called on Father Goebel Saturday.

Tonight

If your liver is out of order, causing Biliousness, Sick Headache, Heartburn, or Constipation, take a dose of

Hood's Pills

On retiring, and tomorrow your digestive organs will be regulated and you will be bright, active and ready for any kind of work. This has been the experience of others; it will be yours. HOOD'S PILLS are sold by all medicine dealers. 25 cts.

THE BIG STORE 20,22,24,26,28, S. MAIN ST. JANESVILLE, WIS.

WE KEEP THE QUALITY UP

Brilliantine Skirts....

They are hot weather sellers. We are selling freely light weight fine brilliantine skirts made without lining, colors, black and light gray. These skirts are rare value at $5.50.

Linen Dress Skirts

Have had to wire orders for them, they sell so fast. Success has crowned our efforts to place these linen skirts in easy reach of purses with a limit to them. The $2.50 and $4 numbers can't be matched elsewhere.

Ties That Take

Hundreds of pretty new things to show you. Our assortment of dainty neckwear is unusually large. **Shield Bows** to wear with high turn over collars, in silk and grenadines. **Linen** novelties that are rare. **Windsors** in large variety. Easy to get suited here.

Dainty Beadings. Lovely Insertions.

The demand is great for **insertions** and our collection is a choice one. A large New York importer keeps us supplied with new things as fast as they appear. **50 pieces** of extra narrow embroidered **beadings** and **insertions** in Swiss, nainsook and Hamburg received July 5th; we can please you.

All Overs...

White cotton **all overs** in lace stripes and beading creations at 25c, 40c, 50c, $1, $1.50, &c. Just the thing for yokes and fronts in summer muslins.

Wash Cotton Goods...

200 pieces arrived from New York last week. Our stock is not allowed to run down. **All black** dress stuffs are well liked and scarce but plenty of them here. The beautiful lace stripe fast black sheer muslins hardly out of the case are being cut into at a lively rate. Prices, 12½, 15, 20, 25 and 35c.

Parasols

Have you bought a new one yet? Summer novelties in parasols that will make any young lady look sweeter and forget the warmth of the atmosphere. You should see ours. Don't forget the little girls; you know they all have a weakness for parasols, even the tots.

McCall Bazar Patterns

for August have been received. No better patterns made than the McCall. Constantly growing in popular favor. Easy to understand, made with graceful curves, styles refreshingly new, and all 10c and 15c, none higher. Subscribe for the McCall Magazine next time you buy a pattern, it only costs 30c a year and pattern included. Ask to see a copy of it. The Bazar Dressmaker is a useful book to have and contains about 1000 illustrations of patterns; only 15c.

ARE TOO CARELESS WITH RANK POISON

Some Good Advice by Physician as to the Care of Poisons and Treatment for Same.

No demonstrations of the disastrous effects likely to follow the experiment seems to deter people from getting up in the night, fishing around in the medicine closet in the dark, and taking a dose out of the bottle that feels most like the one wanted, says the New York Sun. Not a week goes by that doctors and druggists are not called upon for aid in cases of accidental poisoning, more or less serious, caused in this way, and yet the average housekeeper cannot be persuaded to take the necessary precaution in regard to dangerous medicines.

Rat poison, laudanum, bel'adonna, etc., cheerfully elbow pepsin and witch hazel and rhubarb on the closet shelves, and no amount of reasoning can show the owner of the closet the folly of her overweening confidence in her guardian angel. A doctor who recently talked with a reporter on this subject of accidental poisoning waxed exceedingly wroth and expressed an unchristian opinion that the persons who poisoned themselves by mistake ought to die and save the fool killer the trouble of attending to them.

"The utter idiocy of the ordinary person in the matter of dangerous medicines irritates me as much as anything else I know," he said crustily.

"Now look here. Here are some cases I've been called in to treat within the last few months. I suppose other doctors have had as many.

"Here's a woman who took oxalic acid under the fond impression that she was taking epsom salts She deserved to die, but she didn't.

"This man had a bad pain in the night and tried roach poison for it. His last state was worse than his first, but luckily he didn't get much of the stuff down.

"One of my friends almost lost a cook by this case. She had a patent colic medicine next the carbolic acid bottle on the clock shelf, and she mixed them up. We had to save her—she was a good cook.

"By the way there's an interesting new treatment for the carbolic acid burns or poisoning, and it is worth remembering, though some doctors are dubious about its efficacy. Dr. Seneca Powell was the first to advance the theory that the application of pure alcohol will neutralize carbolic acid and arrest its action. Experiments have been made with it successfully. I've seen some of them. Just how far the success would extend I'm not prepared to say; but it would be worth while to try the treatment in an emergency. In this day a'l false lovers ought to carry a bottle of alcohol. Carbolic acid throwing seems to be the fashion.

"Women and men, too, are playing hob with bromidia. One can buy it at the drug store without question and gallons of it are sold for nerve medicine. Every woman who has a nervous headache and every man who has been on a big spree takes a big dose of bromidia. Now there are fifteen grains of chloral to a teaspoonful of bromidia, and while persistent use of the latter will develop chloral habit, an overdose of it may have serious results. This patient of mine had taken a tab'espoonful. There's enough chloral in two teaspoonfuls to kill some persons.

"Laudanum poisoning is very common, and as for the corrosive sublimate mixtures, used for rats and insect pests, any one is crazy who keeps the stuff around the house. If a housekeeper must use it, let her buy just enough for one application and get more when she wants it. There have been too many accidents from carelessness with such mixtures, and the poison is so strong that it is hard to conquer it.

"As a general rule, for acid poisons, except carbolic, one shouldn't give an emetic. Give milk or water with magnesia or common baking soda, strong soap suds to neutralize the acid, white of an egg in water or olive oil. White of egg and olive oil are useful antidotes for a large number of poisons and it's a good thing to try them if you don't know what to do.

"For carbolic acid a strong emetic of epsom salts are good, and as I said before, one might try the pure alcohol. Arsenical poisons, such as paris green and rat poison, call for mustard and warm water emetic and olive oil or white of egg. Hydrated iron is a good thing, and, of course, a physician would supplement any of these antidotes with various drugs, but I'm only mentioning useful antidotes that could be got quick'y in almost any house in an emergency.

"Chloral, laudanum and such poisons should be fought with emetics, cold douches on the head, ammonia to the nostrils, artificial respiration and fresh air.

"Strong, clear coffee is useful in treating for stupefying drugs.

"Of course, superior persons smile at such precaution and say 'Crank' when one advises it, bue we doctors see enough poison accidents to realize the necessity of caution."

DAMAGE DONE OATS THIS YEAR BY SMUT

Agricultural Experimental Station Ask Farmers to Send a Report of Their Findings on Subject.

The Wisconsin agricultural experiment station desires to secure from farmers information relative to the damage to oats the present season by smut. Investigations by the writer show that in many fields in Dane county the loss through smut the present season will amount to from 10 to 25 per cent of the total crop. In some cases the farmers were not aware of the presence of smut in their fields until it was shown them by the writer. Farmers are apt to be misled because the smutted oat stems do not grow to full height and so the affected heads are not readily seen.

The farmer can determine the percentage loss of his crop through smut by counting the oats heads on a given area. To accomplish this take an ordinary barrel hoop to the oat field and throw it over the standing grain. Then count the number of smutted and normal oat heads within the hoop. Make several counts and average the result. Farmers doing this are urged to make a report of their findings to the undersigned.

The Wisconsin station offers to all, for the asking, a simple, inexpensive and effective method of preventing oat smut. Address, R. A. Moore, Agricultural Experiment Station, Madison, Wis.

PREVENT ACCIDENTS AT DANGER POINTS

James H. Clark, a locomotive engineer employed by the Milwaukee road, residing at Portage, has invented and patented a device which he believes will, wherever used make practically impossible railroad accidents at "danger points"—that is railroad crossings, draw bridges, and switches, or other places at which accidents from negligence are possible.

The basis of the plan is an apparatus on the track which will cause the "emergency air" to be applied automatically when there is danger ahead. The trigger that applies the air is some 3,000 feet from the danger point, plenty of space in which to come to a dead standstill. The idea of applying the brakes to prevent accidents, when the engineer overlooks danger signals, Mr. Clark says is new.

The device will be of little expense to the railroad companies, Mr. Clark says, and as he is a railroad man of twenty years' experience, his opinion, that the plan is entirely practicable and cheap should go for something. All that is necessary to put the scheme in operation is to build a branch from the main air pipe running from the engine to the train, extend it to within a few inches of the ground, and so as to hang outside the rail; then place the wire connections with the bridge or switch to a small "L" of steel, which is raised, with the long arm up, when the danger signal is set. The train passing the danger signal at the highest rate of speed will be stopped within 2,000 or 3,000 feet, by the "L" striking a valve at the end of the air line branch and applying the air to the brakes.

Suggested by Engineer's Death.

Mr. Clark began thinking of a scheme for the prevention of these accidents just after Engineer C. A. Snow ran into an open switch at Portage three weks ago with his engine and was killed. Mr. Clark said that the cause of the accident was that the semaphore was not noticed, and the train of Mr. Snow crashed into the open switch, striking a waiting freight train. Mr. C'ark had his drawings finished by July 3. He claims the plan has never been patented nor projected before, and he is confident that there will be a general approval of it, and companies will adopt it throughout the country.

"The device I have invented," says Mr. Clark, is one that will do away with the derail scheme, and it will simply result, in case there is danger, in stopping the train, even if the engineer overlooks the danger signals. It is this failure to observe signals that has caused innumerable railroad accidents, no engineer being infallible when it comes to unerring notice of them.

"The whole plan is simplicity itself. It primarily is a device to apply the brakes for the engineer should he fail. We will take a bridge, for instance. The connection with the trigger, as it were, is the same as used in the block system now so common. Wires run from the trap at the bridge opening to the trigger. When the bridge opens the trap pu'ls up the trigger, and when the engine comes with its protruding air pipe with a ratchet valve at the lower end, an opening in the pipe will be made, the pressure will clamp the brakes to the wheels, and the stop will be as sudden as could be secured by the engineer had he applied the emergency air.

"So you see the scheme will render accidents at danger points practically impossible. It may be used in connection with or separate from the present block system, and may be operated automatica'ly or by a crossing or bridge tender. No train can pass the trigger until the track ahead is set at 'all right.' With the device the bridge tender or operator in charge at danger points can stop a train before it reaches the point without the aid of the trainmen in charge of the train."

Mr. Clark is sanguine over his discovery, and says that several companies have been looking it over already. He thinks it queer that nobody ever thought of the scheme before, as an automatic brake setting danger signal has never to his knowledge been suggested.

Mr. Clark is the inventor of many devices for the safety and easier manipulation of railroads, and recently patented a motor in which he exemplifies the method of producing great power with compressed air and water. The machine is now under construction, and will be comp'eted in two or three weeeks.

PAT CROWE SAFE IN AFRICA.

Kidnapper Sends a Remittance to a Missouri Man.

St. Joseph, Mo., July 15.—A. W. Brewster, an attorney of this city, has received a draft for $250 sent to him by "Pat" Crowe from Johannesburg, South Africa. The amount was sent to the lawyer to pay an attorney fee which Crowe had owed a number of years. Crowe's name has been connected by allegation with the kidnaping in Omaha of the young son of Edward Cudahy, the packer, who paid a ransom of $25,000 in gold to recover his boy. Several years ago Crowe was under arrest in St. Joseph on the charge of train robbery. He employed Brewster, who is a state senator, who succeeded in securing the acquittal of Crowe. A few days after the kidnapers secured the money from the packer Crowe disappeared from Omaha. He had formerly worked for Cudahy. No letter accompanied Crowe's draft to Attorney Brewster. There is still standing a reward of $30,000 offered for the arrest of the kidnapers—$25,000 provided by Mr. Cudahy and $5,000 by Nebraska.

Wealth for Woman.

New York, July 15.—T. Suffern Tailer, son-in-law of the late Pierre Lorillard, confirmed the announcement that Mr. Lorillard's will would be contested because of a bequest to a woman friend. It was a maxim of Pierre Lorillard never to forget a friend. "I'll stand by those who stand by me" was one of his frequent expressions well remembered by his acquaintances. Thus it comes about that Mrs. Lily Allien of 11 East Thirty-first street is one of the chief legatees under the millionaire's will. She gets the princely Rancocas stock farm, worth not less than $500,000.

They Were Bull Too Long.

Mattoon, Ill., July 15.—The H. J. Heugland commission firm, operating Boards of Trade in this city and Decatur, has suspended. The suspension is due to failure of the Decatur branch of the firm, operated by George Kizer, who won a fortune on Phillips' corner in May corn, carrying 234,000 bushels, and lost as heavily by bulling July and November corn. June 1 the firm was $25,000 ahead of the market in cash, which later speculations swept away, and $18,000 is now due customers. Over $10,000 is due the firm from patrons who, it is declared, refused to make good their margins.

Miss Florence Eastman of Chicago is visiting her uncle, J. C. Cunningham.

Tears

Many a woman has periodic crying spells. She meets her husband with eyes red and swollen and he cries out: "What has happened?" "Nothing" his wife replies. "I don't know what is the matter with me, but I just had to have a good cry." Men don't have crying spells. It would seem therefore that an affection confined to women must have its cause in the womanly nature. There is no doubt that a diseased condition of the delicate womanly organs, is in general responsible for feminine nervousness and hysteria.

The use of Dr. Pierce's Favorite Prescription makes women happy by making them healthy. There are no more crying spells. "Favorite Prescription" cures inflammation, ulceration and female weakness. It makes weak women strong, sick women well.

There is no medicine "just as good." Accept no substitute.

"For three years," writes Mrs. Mary A. Sasser, of High, Lamar Co., Texas, "I suffered with falling of the womb, also ulceration of the womb. After using three bottles of your 'Favorite Prescription,' four of 'Golden Medical Discovery' and two vials of 'Pleasant Pellets,' I found relief. I am able to do my work with ease. I recommend your wonderful medicine to all my friends, for I truly believe it saved my life."

Free. Dr. Pierce's Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay cost of mailing *only*. Cloth binding 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

WHAT THE CHINESE SAY

Interesting Conversation in Relation to the Riverside Laundry.

"Melican gal she knock Sing Lee no good. Me no kin washee allee samee Laundry. No try; me go back my China and die." Even the Chinese admit that the Riverside Steam Laundry does the best laundry work and why wouldn't they. The Riverside has no equal in this portion of the state. No expense has been spared by the management to install the latest machinery. Here a'so only expert hand ironers are employed. When you send your work to the Riverside laundry you know that your laundry will receive the best of care.

Slow Healing Sores

With rich, pure, strong blood one is never troubled with sores or ulcers. A cut or any injury to the flesh heals in a few days, nature supplying the healing balm in the form of healthy, new blood; but when the circulation is tainted with poisonous germs, humors or any effete matter, a slight scratch or abrasion of the skin becomes a festering sore, tiny pimples grow to be boils, swollen joints and inflamed glands often break out into offensive, slow healing sores. A polluted blood is always a menace to health; not only does it keep the skin in a chronic state of inflammation, but every organ and fibre of the body suffers from an impure and sluggish circulation. You never feel well, you are not and never can be well until the system is relieved of its terrible load of impurities. With the blood so contaminated, so deeply poisoned, ulcers, boils and sores of every kind are apt to become chronic and often develop into Cancer.

Sores and ulcers are most often caused by poverty of the blood and a weak and slow circulation, brought on by long continued sickness, malarial poisoning, torpid liver, the use of mercury, or whatever is calculated to destroy the vitality of the blood and break down the constitution. These old chronic sores last sometimes for years, eating into the flesh, muscles, tissues, and even down into the bones, and are such a tax upon the system that it is hard for the patient to recuperate, and a simple malady often proves fatal.

I became afflicted with a severe sore leg and from the knee to the foot was one solid sore, which was very offensive. I spent over $1,000 on two trips to Hot Springs, and local physicians treated me to no purpose. I had about decided to have my leg amputated, when a friend induced me to try S. S. S. I began to take your medicine, and in the short space of seven months it has completely and thoroughly cured me. My leg is a witness today as to what S. S. S. will do when taken regularly. The sore has healed entirely and my health has improved wonderfully. I have already gained 20 pounds.
J. B. TALBERT,
Box 245. Winona, Miss.

Nothing so quickly or surely restores lost strength and vitality to the blood as S. S. S. It is an antidote for the severest forms of Blood Poison, as well as the irritating humors that cause the eruptions and sores that sap your very life and so greatly disfigure you. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no mercury, potash, arsenic or other hurtful drug. It cleanses the blood and purifies the circulation, thus ridding the system of the impurities that keep the sores feverish and painful. At the same time your general health improves under the tonic effects of S. S. S., and the skin becomes soft, smooth and healthy. If you are troubled with boils, carbuncles, sores or eruptions of any sort, write our physicians all about your case; don't risk your own judgment when you can get medical advice from experienced doctors free. Book on Blood and Skin Diseases to all who desire it.

WISCONSIN WEATHER FORECAST

Generally fair tonight and Wednesday.

IDEAS FROM THE OTHER PRINTS.

Let Democrats in Too.

The Hudson Star-Times makes this suggestion:

The Milwaukee Journal suggests a joint debate between Governor La Follette and Senator Whitehead, this fall, at the county fairs, upon the Stevens Primary Election Bill. That would be interesting; but what would be the matter with trotting some democratic leader into the ring upon this important topic? It is a problem for the minority party in this state to consider as fully as for the majority. If the innovation is ever made all the people will be subject to its operations. We do not want to permit the Journal to be more concerned in republican discord than it is to arrive at the truth upon a mooted political question. Let everybody in all parties speak their mind.

* * *

As to Uncle Ike's Bar'l.

Waushara Argus, Rep.: The 'reformers' are now in the saddle in Wisconsin, and the way they are reforming the state by removing tried and trusted employes to make room for political pets discounts anything before seen in the political history of Wisconsin. The old "vet" seems to be particularly obnoxious to the "reformers," while Uncle Ike's proteges are particularly inviting timber for the dissemination of the reform ideas. But, then, reform preachings and reform practices are entirely different matters and your Uncle Ike has the material that has a great attraction for the professional reformer and his wishes must therefore be respected.

* * *

None at All, None at All.

The Milwaukee Journal reprints a clipping from the Elkhorn Independent, and asks a pertinent question: A few years since the Milwaukee Journal amused itself by characterizing this paper as 'LaFollette Republican.' And now the man who uses the shears calls it a "Half-Breed." But not in its Republicanism, Mr. Journal. It is a Stalwart Republican paper, and tries to never leave its readers in doubt as to its position. It would do the same if Democratic. See?—Elkhorn Independent, State Office-Holder.

Is anybody in doubt as to your case?

Result of a Debate.

Menasha Breeze, Half-Breed Rep.: Should a joint debate between the so-called Stalwarts and Half-Breeds be arranged, as suggested by the Milwaukee Journal in an editorial a few days ago, it might be stated truthfully after it was all over, that Gov. La Follette was "Whiteheaded."

* * *

Need of the Stalwarts.

Here is the conclusion arrived at by the Milwaukee Journal:

"What the Stalwarts need is some man who can run like a Whitehead."

A Church Trust.

President Clark, of the Christian Endeavor does not say whether he is in favor of trusts in general or not, but he is in favor of a trust in churches. In this age of combination for mutual benefit and greater strength, the church needs to be more united in order to save unnecessary labor and accomplish more definite results. Small, starving churches perpetuate the spirit of denominationalism, a dozen churches existing in cities where one could do the work much better. Not only have there been great combinations in the industrial world, but in the forces that tend for evil. If we are to contend successfully with these combined forces, the church must form some kind of a union. The combinations in politics are so strong that they are open and brazen in their operations against the people's welfare, as is instanced in the recent Pennsylvania franchise steal.

Perhaps Pres. Clark thinks this tremendous force gathered from over forty denominations and represented in every country under the sun, has a better opportunity to make an effective combination than any coterie of churches.

Indiscriminate Giving.

Jacob S. Rogers, the wealthy locomotive builder, has left the largest endowment in the history of art, to the New York museum. Living the life of a recluse, paying no attention to things aesthetic or educational, and coming to the end of his rope when he could no longer accumulate, he dumped over $8,000,000 into the museum. However, the museum is likely to see very little of the bequest; the will will be contested, and the estate will disappear while relatives fight.

The man who proposes to make Hawaii a part of California is indeed a carpetbagger of the most pronounced type.

Concentration in South Africa is attracting almost as much criticism as it did in Cuba. If anything will encourage intervention on behalf of the Boers, it will be the principle of gathering women and children in isolated camps when the greatest difficulty is experienced in keeping body and soul together.

The death of John Fiske, the American historian, causes a loss to the country that will be well nigh irreparable. His life was one continuous round of study and investigation. At eight years of age he had mastered both Latin and Greek; and on his graduation from Harvard was characterized as the brainiest man that institution has ever developed.

Von Waldersee is to have another ovation when he returns so that people shall remember both ends and forget the middle.

Menominee has carried municipal aesthetics to such an extent as to engage Mr. Manning and the landscape gardeners of the World's Fair to improve the parks and driveways of the city buildings, as well as to assist private individuals in the work of beautifying lawns.

The problem of the hour in the west is the irrigation and reclarination of arid lands so as to make them productive. Great interest is being manifested by individuals, and the attention of congress will undoubtedly be called to the subject.

FORESEES CLASH OF CLASSES.

Ohio Man's Conclusions After 2,000-Mile Bicycle Tour in Europe.

London, July 15.—John W. Bookwalter of Ohio, who sailed for the United States on the Hamburg-American line steamer Columbia yesterday, spent a few days in London this week after a 2,000-mile bicycle trip through southern Europe, during which he traversed Italy almost from end to end, crossed the Apennines, went over the Saint Gothard range and wheeled over the mountainous roads of Switzerland. Mr. Bookwalter spent the greater part of his time living among and closely studying peasantry, and he is thoroughly convinced that a crisis is imminent between the urban and rural populations of the world. In the rise in the price of grain he sees the beginning of a struggle of the agricultural element against the concentration of capital in the cities. This movement, he believes, will commence in America, where he thinks, the economic Germany and France, especially the latter, which he maintains is the soundest country in the world, owing to the distribution of wealth between the agrarian and metropolitan classes.

Boers Suffer a Defeat.

Pretoria, July 15.—General Methuen had a successful engagement with the Boers July 6 northeast of Zeerust, in the Transvaal colony. Four Boers were killed and forty-seven captured. The Boers daringly attempted to raid a cattle ranch near here; they were driven off with loss, gun butts being used in the encounter.

London, July 15.—The Sun is informed that Acting President Schalkburger's wife has been captured near Waterval, Transvaal colony, and sent as a prisoner of war to Pretoria. The Sun's informant says the military authorities attach great importance to this capture.

Makes Good Balloon Trial.

Paris, July 15.—M. Santos-Dumont, the Brazilian aeronaut, made the official trial of his balloon in the attempt to win the prize of 100,000 francs offered by Henry Deutsch for a manageable balloon before a committee of the Aero club today. Starting from the Parc de Meudon he reached the Eiffel tower in a quarter of an hour, and, after sailing around the tower, started to return to the Parc de Meudon, but lack of motive power necessitated a descent at Boulogne-sur-Seine. The trials will be resumed later.

Lead American Girls Astray.

Paris, July 15.—A surprising result of pretty girls from shops and homes by promises of good situations has been the discovery of over 200 American young women leading evil lives in Paris. Most of them came here in search of work or to study music and painting. Absolute want soon made them easy victims of professional beguilers.

Excursion to Lake Geneva tomorrow on the Chicago and Northwestern railroad.

Marriage licenses have been issued to James Collins and Abbey Richardson, both of Janesville; John N. Felmley of Bristow, Ia., and C. Van Buskirk of Janesville; Stanislaus Lyddy of Milwaukee, and Maude Lane of Janesville.

Thomas J. Fleming of Milwaukee was in the city on business today. He was formerly secretary of the State Fair association.

LYNCHING ABOARD TRAIN

Passengers on Speeding Car Sentence a Negro.

HE IS GIVEN A MOCK TRIAL.

Desperado, Who Had Shot Two White Men in a Quarrel, Is Hurled to His Doom from a 90-Foot Railroad Trestle.

Charlotte, N. C., July 15.—Enraged passengers on an excursion train hurled a negro from a 90-foot trestle near this city, killing him instantly. The train was on its way from Spartansburg, S. C., to this city when a row occurred between the negro and two white men. Blows were exchanged and the negro was beginning to get the worst of the struggle when he drew a revolver and shot both men, killing one instantly and fatally wounding the other. This so enraged the other passengers that half a dozen of them made a rush for the negro. He held them at bay for a time with his gun, but finally an attack was made from behind and he was overpowered. Part of the bellrope of the train was obtained and the desperate man was bound securely. Then it was decided that the passengers form a court. This was done and the negro was found guilty and sentenced to death. Several of the passengers urged that he be brought here and turned over to the officers of the law. The groans of the wounded man and the sight of the dead man, however, counteracted their humane efforts. As the train approached the trestle it was decided to throw the negro from it and several men picked him up and carried him to the platform of the car. When the train reached the center of the trestle the negro was swung back and forth a couple of times by his captors, who then let go of his body. The negro whirled through the air to instant death on the rocks below. His mangled body was later brought to this city. It is not likely that an investigation of the lynching will be made, as the general opinion here is that the negro met a deserved fate for shooting the two white men.

RIDES RAPIDS IN BARREL.

Carlisle D. Graham Narrowly Escapes Suffocation in Niagara.

Niagara Falls, N. Y., July 15.—Five times Carlisle D. Graham said he would go through the rapids, and five times he kept his word. His fifth trip was made yesterday in the presence of thousands of spectators, who lined the cliffs, occupied the bridges, and rode in trolley cars yesterday afternoon. Graham started a few hundred feet above the lower bridges. He entered his barrel at 3:25 o'clock and five minutes later was being towed out to midstream. At 3:33 o'clock he was set adrift, but for twenty-four minutes drifted in an eddy on the American side. Owing to the heat this was a terrible experience, for he should not have been in the barrel more than fifteen minutes. At 3:58 o'clock he struck the first wave, his course through the Rapids being along the New York side. At 4 o'clock he was in the pool, drifting right across towards the Canadian shore. Several men swam out and pulled the barrel ashore. When it was opened Graham was partly suffocated and faint, but he revived quickly. He shipped six inches of water through a peephole.

C. L. WHITE SEEKS DAMAGES.

Wants the United States to Take Up Case Against England.

New York, July 14.—A dispatch to the Tribune from London says: Charles Lilly White is endeavoring to induce the American government to take up his case for damages for arrest and seven months' imprisonment. His papers show that, while he was born in London, he was naturalized in Chicago, and was a resident of Tacoma before he went to New Zealand, where he was arrested and sent to Colchester on a charge of murder and arson.

He intends to return to New Zealand, now that his innocence has been established, but hopes to hold the British authorities responsible for this case of mistaken identity, as he lived in New Zealand several years before his arrest and deportation in irons. The bearings of his American naturalization are uncertain.

Time Lock Does Not Work.

San Francisco, Cal., July 15.—Safe Expert Charles Walz has discovered that the time lock on the cashier's vault in the mint, from which $30,000 was stolen, does not operate and has been out of order for an indefinite time. This has broadened the scope of the investigation now in progress by secret service men, as it is apparent that the robbery may have occurred at any time between 3 p. m. and 9 o'clock the following morning.

Ice Still Blocks the Ships.

St. John's, N. F., July 15.—Ice continues to block the Labrador coast, rendering navigation in Belle Isle strait extremely dangerous. Reports show that the floes are exceptionally heavy and of large area, cumbering the ocean well beyond the range of vision and numerous bergs are scattered about.

Shot Dead on a Train.

Rawlins, Wyo., July 15.—A man named Rogers was shot to death by Ned Hartley Copeland on Union Pacific train No. 6 last night. Copeland was traveling from Stockton, Cal., to Council Bluffs, Ia.

MANY VISITED HOARD'S PLACE

Popular Lake Koshkonong Resort Attracted Several From Here

At Hoard's Hotel, Lake Koshkonong yesterday, Janesville was well represented. Many drove over from the Bower City while others went by train. Hoard's Place is more attractive than ever this year. Mr. and Mrs. C. W. Williams are in charge, which means that the best of attention is given all guests.

Hoard's steamer, Uncle Sam, made trips from Fort Atkinson, in charge of Captain Wooden. Hundreds of pleasure seekers took the boat trip about the lake while others remained at Hoard's until the return of the boat. Yesterday proved an ideal day for lake pleasure and many in Janesville took advantage of the fact.

The Greatest Suit Bargains Of The Year

The most phenomenal Suit values of the many we have offered will be placed before you today and for the balance of the month.—Three hundred of the nobbiest of man-tailored garments on sale at one-third to one-half less than regular prices.

Not a loss to us but to the manufacturers from whom we have secured them in the past few weeks,—all high class Suits, many silk lined throughout, and all on sale at bargain prices.

When You Take A Trip

a suit is necessary, so very handy for traveling, and no matter where you go you are well dressed, for the source of our supply is from manufacturers who supply the best houses in America and the styles are beyond question—correct.

There are many different Suits and to mention former or regular prices would mean little; suffice to say that we will offer extra special values at $10, 12, 13 1-2, 15 and $18, and we shall be pleased if you will come in and look through the lines. You will not be urged to buy, but we are confident that a visit will result to your benefit.

STRONG PLEA FOR CHURCH COLLEGES

REV. CLIFTON SAYS THEY ARE THE COUNTRY'S HOPE,

Dangers Threaten the Nation for Weich Secular Education is No Safeguard—The Chicago Divine Addressed the Union Service of the Churches Last Evening.

Rev. Theodore Clifton, of Chicago, western field secretary of the Congregational Educational society, is in the city and last evening he preached before a splendid audience at the Presbyterian church. It was the second meeting in the series of union evening services in which the congregations of the five evangelical churches are joining during the months of July and August and Rev. W. W. Woodside, pastor of the First M. E. church, was scheduled to preach. When it was learned that Rev. Clifton was in the city, however, the pastors of the five churches joined in an invitation, requesting him to speak to the people of Janesville.

The meeting was one of helpfullness and was largely attended, in spite of the extreme heat. The singing was congregational, Len Mathews leading with inspiring spirit. Mrs. J. F. Sweeney presided at the organ and played the voluntaries and the offertory solo as well as the accompaniments.

Rev. J. T. Henderson, pastor of the church, presided, and Rev. Richard M. Vaughan, of the Baptist church, led in the brief prayer followed by the Lord's prayer. The Scripture lesson was read by the Rev. Walter A. Hall, of the Court Street M. E. church, and Rev. Robert C. Denison of the Congregational church, offered prayer while at the close of the sermon, the benedictory prayer was offered by Rev. W. W. Woodside, pastor of the First M. E. church.

Sermon Was an Able One

Rev. Clifton is a forceful and entertaining speaker. He took for his subject last evening, "Our Country, Its Perils and Its Safeguards," and for his text, Psalm 127:1, "Except the Lord build the house, they labor in vain that build it; except the Lord keep the city, the watchman waketh but in vain."

In his introduction the speaker said that it would not be courteous for him to talk shop so he would not talk denominationally, but interdenominationally, of the educational institution of the church. All denominations have their denominational schools and colleges. People who live today and who love America and the kingdom of God need to have an understanding of the times in order to live up to their duties. They need to understand the situation in order to meet it wisely.

Intelligent Christianity Needed.

In speaking of the necessity of Christian education it was wise to consider the factors which contain peril for the country and which call for the one great safeguard, intelligent Christianity. One thing that contains peril for the nation is the expansion of territory. While the speaker believed heartily in expansion he also believed that if the country is to expand, it must be strong at heart and foundation. This cannot be true without Christian intelligence. Another peril lies in the tremendous growth of population with its corresponding growth of duty and responsibility. The population has increased twelve fold in the past century. Great peril also lies in the congestion of population in the large cities. Forty per cent. of the American population resides in cities where the population has increased 150 fold in the past century.

Dangers of Ignorance and Greed.

Another menace is the ignorance and want of patriotism which prevails in large cities where thousands of men vote as they are told by corrupt ward politicians. This situation calls loudly for the work which is being done by the Christian edutional institutions. Danger threatens the country in the constantly growing greed of Americans. All over the land the prevailing topic of conversation among men is money. Combination and co-operation are being used to get money. They are all right if conducted in the proper spirit. It is not wicked for a man to get rich if he gets his money honestly and uses it benificently. It is a magnificent combination of circumstances that gives man an opportunity to help churches, to endow churches and hospitals or to build libraries. Four years ago, D. K. Pearsons, the great Chicago philanthropist, gave the speaker the following message: "Tell the People to Give While They Live."

Plea for the Bible.

The country wants an education for its young people which will teach them not only to make money, but to use it wisely, an education which puts stress on manhood and womanhood, on character rather than on material things. Such education can only come through denominational colleges, for whose existence a great reason is found in the attitude of the public school system toward the Holy Bible. This system, from the kindergarten to the university, is growing weaker in Christian training and Christian influence. The public school system is a grand one but so long as the Bible is not allowed in the schools, the churches are called upon to build and support educational institutions where the grand old book is not condemned and despised but is used to supplant other education.

The work of the Christian college is essential to purity and the political prosperity of the country. It is necessary for the church and for the kingdom of God on earth because to it the church must look for its pastors and missionaries. The Christian educational institution does much for the country in being rich, symmetrical education within the reach of the poor. The support of such institutions is a noble investment.

At the Congregational Church

In the morning Rev. Clifton occupied the pulpit of the Congregational church, speaking along the same line with special reference to Endeavor Academy, where Rev. Cheney, of this city, is in charge and in whose special interests Rev. Clifton will spend several days in this city.

Mrs. Mary Stever officiated as organist in the absence of Mrs. F. F. Lewis and one of the pleasing musical numbers was the rendition of Shelley's "Christian, the Morn Breaks Sweetly O'er Us" by Mrs. A. O. Wilson, Miss Grace Mead, W. S. Jeffris and G. W. Dudley.

NEWS OF THE CITY

Hires' carbonated root beer on ice.
W. W. Nash.

For desirable styles in wash dress goods at moderate prices go to T. P. Burns'.

Dunham's cocoanut in half pound packages, 15c. Not sold in bulk. W. W. Nash.

Watch the announcement to be made by Bort, Bailey & Co. for a special Wednesday sale.

Dr. W. F. McCabe of Beloit, and Mr. Rockwell spent the afternoon on the links of the Sinnissippi Golf Club.

In the Municipal court today the case of Rudolph Hager vs. James T. Brown, an action brought on a note, was adjourned until July 29.

Mr. and Mrs. George E. King returned today from Lake Kegonsa, where they have been in camp the past two weeks.

Miss Flossie MacGregor, who has been very ill for several weeks was taken to Chicago this morning to consult a specialist. She was accompanied by her sister, Miss Ellen MacGregor and by her physician, Dr. James Mills.

Buffalo Bill's Wild West opened a week's engagement at 35th and Wentworth avenue, Chicago, today.

Mrs. Carpenter of the Western Union Telegraph office is fast gaining strength as the result of an operation performed last week at the Palmer hospital.

Saturday Dr. Woods received an order for the $20,000 due him from the city for the public library site.

The skirt donated by Mrs. M. Buob, to be raffled off in the interests of St. Mary's church, was won by Miss Anna Feely, who held ticket No. 16.

A special meeting of the Elks will be held this evening for work. Arrangements will also be made at this meeting to attend the Milwaukee Carnival and a full attendance of the members is necessary.

Supt. George J. Hurd of the Janesville street railway company went to Madison today to take another course of hot air treatment for rheumatism. It would seem as though the ordinary man ought to get all the hot air he craved for in Janesville.

A grass fire along the Northwestern tracks near Fisher's warehouse in the First Ward Saturday afternoon, was the cause of an alarm of fire. The fire spread to the grass in the fields next to the track and endangered the houses located near them. It was subdued without any water being thrown.

Misses Mellie and Amy Bowles returned last evening from a pleasure trip to the White Mountains, the Pan American exposition at Buffalo, and other eastern points.

Earnest Randall leaves this evening for Fargo, N. D., where he will engage in business. He has a host of local friends who will be pleased to know that he intends returning to the Bower City this fall.

Tomorrow morning we place on sale nineteen pieces of 30-inch satin stripe challies at 24½ cents per yard. Every piece an exquisite pattern and the very latest styles in challies. Actual value, 40 cents a yard. Bort, Bailey & Co.

From the number of inquiries we have about our leaving town we judge there have been reports to that effect in circulation. We are at 31 South Main street for business, and we intend to STAY.

We hope to make our work warrant the patronage of people who need anything in our line, and hope those who have upholstering in the shop will feel free to come in at any time to see its progress. The work room is always open to visitors, and it is a pleasure to show our samples and explain the various things we do. As to the "youthful assistant" we have, we admit that twenty-nine is young in this age when one is middle-aged at seventy; but many who have tried farming, teaching and various other trades as a training, cannot do much better than a man who has spent fifteen years in two of the best houses in the Garden City. We are confident of our own ability to do the best work, and we hope to have the privilege of proving our worth to the public. Remember the place. Evans, No. 31, South Main street, city.

WISCONSIN STATE GOLF TOURNAMENT

CONTESTS FROM ALL STATE CLUBS EXPECTED.

Matches Will Be Started Promptly at Eight O'clock Thursday Morning---Large Number of Entries Received; Many More Expected--State Association To Be Organized Wednesday.

On Thursday, Friday and Saturday of this week, the first annual tournament of the Wisconsin Golf association will be held on the grounds of the Sinnissippi Golf club.

The meeting for the organization of a state association will be held Wednesday evening at the Grand Hotel. Each club is entitled to two delegates at this meeting and all of the clubs of the state with a few exceptions will be represented at the gathering.

Officers will be elected for the ensuing year, by-laws adopted and rules and regulations for the government of future tournaments of the association will be framed, and any other business that may properly come before the meeting will be disposed of.

Thursday will be the opening day of the tournament. At eight o'clock a. m., the first pair in the qualifying round will be started and another pair every five minutes until all are started. The starting time was originally set at nine o'clock, but for fear that the players would not all finish in time it was decided to start an hour earlier.

Thursday afternoon at 2 o'clock the first round of the match play for the championship cup will be started and at 2:30 the first round for the consolation cup.

Friday morning the second round of match play for the championship cup will start and at 9:30 the second round of match play for the consolation cup. At 2 p. m. the semi-finals for the championship cup will be started and at 2:30 the semi-finals for the consolation cup.

Saturday the finals for both cups, consisting of thirty-six holes, will be played, eighteen in the forenoon and eighteen in the afternoon. There will also be a driving, approaching and putting contests on Saturday afternoon.

The matches will be under the supervision of the games committee, consisting of C. E. Pierce, C. C. MacLean and William A. Jackson. This will be a busy week for the club and all members are asked to assist in the running of the events.

A club supper will be served by the ladies of the club on Thursday evening. There will be music and dancing later in the evening. There will also be an entertainment on Friday evening. The entries for the tournament close this evening, and any entry mailed by six o'clock from the home of the contestant will be accepted. The entries received so far by Secretary Baker are as follows:

Kenosha—C. C. Allen, Fred Pettitt, Chester Barnes, G. A. Yulek, Col. Aiken, Wm. Cantwell and J. Canaugh.

Green Lake.—M. A. DeMoss, J. Walker Ross, Joe De Moss.

Madison—Frank Jacobs, Albert Kroff, J. F. Pyre, Phil King.

Neenah—John Stevens.

Milwaukee—Hamilton Vost.

Janesville—F. E. Fifield, C. C. MacLean, F. J. Baker, J. P. Baker, Albert Schaller, Chas. Schaller, Leo Brownell, H. S. McGiffin, J. J. Hall, O. Sutherland, Charles Dunn, C. F. Achterberg, H. G. Carter, H. H. McKinney, H. R. King, S. D. Tallman, George Underhill, F. C. Grant and Chester Brewer. A large number of additional entries will undoubtedly be received by the secretary this evening and tomorrow.

The semi-finals for the Richardson medal will be played tomorrow afternoon. The pairs are as follows: F. J. Baker 6, vs. Charles Dunn 6; Albert Schaller scratch, vs. H. H. McKinney, 6.

The finals will be played off during the tournament if possible.

The Sinnissippi players are practicing daily and are getting in good shape for the tournament and some of them should be able to keep the cup in this city. The positions of the team numbers have changed very little during the last week, most of the members being able to retain their places.

Smith's orchestra will give a moonlight ride and dance Tuesday evening, July 16th, at Crystal Springs Park. Tickets, including ride and dance, 50c. First boat at 7:45 o'clock and the next one at 9 o'clock.

Fifty cents a yard satin stripe challies we place on sale tomorrow at 24½ cents per yard. Bort, Bailey & Co.

About three hundred from Madison took advantage of the excursion given by the Union Mutual Insurance and Health association from Madison to this city yesterday. The excursionists went direct from the station to the steamer and were taken to Crystal Springs park where they spent the day.

PRAY FOR RAIN AT ST. MARY'S CHURCH

Many People Gather at a Special Mass Held at an Early Hour This Morning.

A special mass was celebrated at St. Mary's church this morning at six o'clock, for the express purpose of praying for rain. There was a large attendance, and the service conducted by Rev. Father W. A. Goebel was a most impressive one.

Catholics and Protestants, believers and non-believers will unite in the hope that the fervent prayers offered up this morning will be answered. Not only is the vegetation which lies close to the sun-baked earth dried up, but the leaves on the trees are beginning to turn brown. Many people are finding reason for expecting a downfall of rain from the fact that there is to be a change of the moon tonight.

Dispatches from Witchita, Kansas, say that special prayer meetings for rain were held in all the churches yesterday afternoon. Grasshoppers are flocking to Kansas City by the millions. Crops are ruined beyond hope, and rain would do no good beyond cooling off the air and making life more pleasant.

PREFERS A HORSE TO AN AUTOMOBILE

New Fangled Conveyance That Would Not Stand Still Any Better Than a Frisky Horse.

A well-to-do resident of Central Park West is fond of driving, and he and his wife invariably go out together; according to the Milwaukee Sentinel. He has always kept a pair of horses which he has driven himself, sometimes singly and sometimes together. He and his wife are fond of making calls, and also of alighting in the park and on suburban lanes to look at flowers and other things. It has always been a sorrow to the man that he could not find a horse suitable for his purposes, that would stand without tying.

"If I could find a horse that would stand, and that also had spirit, I would gladly give fifteen hundred dollars for him," he has often said.

As he is undoubtedly fond of driving a horse the man was a little slow in getting an automobile; but he bought one at last and made his first public appearance as a chauffeur about two weeks ago.

"At last," he said to everybody, "I have a horse that will stand."

The other day the man and his wife took a run on the auto to a large cemetery that lies quite a distance out of the city; the name of it need not be mentioned here, as to mention it might bring the story too near home to the hero and heroine. Winding slowly through the drives of this cemetery, the couple came to a certain elaborate monument, and, wishing to see all sides of it, they alighted, after their usual fashion, and leaving the automobile at the edge of the drive, walked around behind the monument.

"It's a pleasure that we don't have to worry about that horse starting up," said the man.

They were on the other side of the monument when they heard a queer puffing noise from the front, and, glancing up, they saw their automobile starting down the slope of the drive at a rapid rate. They ran after it, but it was of no use. It was under headway so great that they could not overtake it.

In a moment the vehicle left the road and started straight across the lots. It grazed two or three monuments, bounded over stone copings and drove away small parties of people who were visiting graves, scattering women and children in every direction. There was a long slope here leading down to an ornamental lake. The automobile was headed for this lake, propelled by its own motive power, in full operation, and also by the force of gravitation. Down it went, leaping the copings, crossing the paths; the owner had given up pursuit, and watched from the top of the hill the wild flight of the vehicle.

At last it struck a recumbent monument, turned a complete somersault and dashed into the lake bottom up, its wheels continuing to turn impotently in the air for some time.

Before long a crowd gathered; it included the owner of the automobile and his wife. There was nothing to be done. It would take organization and expert management to get the thing out of the water. The pair went to the cemetery office and telephoned to the nearest livery sable for a carriage and driver. They also telephoned to the auto company to come and fish out the machine.

Then they drove silently home. The wife, in relating the circumstance, said that she knew better than to open her head, and the husband had no disposition to, apparently. But just as they were reaching home, he looked up, with a black look, and said, between his closed teeth:

"I wonder what they have that —— puddle in the cemetery for?"

Lake Geneva.

DROUGHT LOSS IS GROWING

To Fall on All Throughout the Land.

PORK AND BEEF ADVANCE.

Withering Crops in Corn-Producing States Near Destruction for Want of Moisture—Forest Fires Reported—Daily Loss in the Millions.

Chicago, July 15.—Again western farmers looked with despair on withering crops and thirsting cattle yesterday. The rain that is prayed for to relieve the drought-stricken state did not come. Not a cloud in the sky tempered the hot rays of the sun, although the mercury was not so high on Saturday and the torrid wind from the south was stilled.

Every day of the drought is costing millions of dollars. Unless rain alleviates the conditions in most states within three days the corn crops will be a failure, with consequent losses throughout the country falling on consumer as well as producer.

From Kansas it was reported yesterday that the grass and crops are almost a total failure. The corn crop of the Sunflower State will be very small. With this scarcity of food for cattle stockmen expect an immediate advance in the price of beef and pork. Owners of cattle will suffer incalculable loss.

Heavy rains must come immediately to save what is left of Missouri's corn crop. The heat was a little less intense yesterday, but the agricultural conditions were less hopeful than before.

Forest fires caused by sparks from locomotives falling on the parched woodlands of Arkansas are causing great loss. Half a dozen conflagrations were reported yesterday.

In Kansas, rain in forty-eight hours can save 40 per cent of the corn crop. The downpour, if it comes after tomorrow, will fall on devastated fields. Farmers in Iowa and Nebraska report the common cry for rain.

Texas alone has gained relief from the drought. For the first time in two months a heavy rain fell in the Lone Star State yesterday.

Boat Explosion Kills Two.

Sunbury, Pa., July 15.—An explosion in an excursion boat in the Susquehanna river at the foot of Market street killed two boys and injured twelve other persons, two fatally. One man is missing and may also have been killed. The dead: Allen Fetzer, aged 14, cut and burned beyond recognition; Artie Fetzer, aged 12, skull fractured and badly burned; George Frymire, pilot of the boat, missing. All of the boys killed and injured were fishing on a near-by wharf. The engineer was absent at the time. No cause is so far assigned for the explosion of the boiler.

Mother Sells Her Son.

Ransomville, N. Y., July 15.—To insure a $500 annual income for herself, a good home and kind foster parents for her only child, and a $5,000 endowment for him when he attains his majority, a Pittsburg woman who declines to make known her identity has sold and transferred all her rights, title, and custody of her 2-year-old son to Jacob Schleswing, a wealthy farmer, living on the lake road five miles northwest of this village.

FRENCH ARE EXCITED.

British Survey of Sea Around Channel Islands Stirs Paris

New York, July 15.—A dispatch to the Herald from Paris says that a circular published by a local paper at Avranches, a town on the coast of Brittany, informs boatment and fishermen that one of his Brittanic majesty's vessels will be occupied in observing the direction and speed of currents near the channel islands from the middle of May to the end of August, the boatmen and fishermen are warned against approaching closer to this vessel than may be necessary for safe navigation while she is carrying out this survey, undertaken in the interests of seamen generally.

This has stirred up several Paris papers considerably, although the channel islands which comprise Jersey Guernsey, Alderney and Sark are English territory.

Autorite, "a warship of his Britannic majesty, with the authorization of the French government, is studying our coasts, taking soundings and examining the currents, in such fashion that on the outbreak of war, which becomes daily more and more probable, there will not be an inch of our coast line that it not known in every particular."

Libre Parole in an article headed "Treason on every side," says: "And now our naval authorities issue instructions with a view to aiding soundings on our coasts by an English vessel. It seems incredible, but it is true. The Avranchin announced the fact some days ago, and it has not been denied. An English vessel, with the consent of the French government, is going to mark points where our submarines could take shelter or perform evolutions.

"The next thing we may expect will be that the people on our coasts will be notified that they must keep away from the seashore while English cruisers are practicing bombarding."

PANIC AT A HOTEL FIRE.

Several Persons Hurt at Butte, Mont.—Loss, $90,000.

Butte, Mont., July 15.—At 2:40 a still alarm was turned in from the Butte hotel, a four-story structure in Broadway. When the firemen reached the scene the building was enveloped in smoke, which appeared to pour from every open window. The firemen were unable to find the blaze for some thirty minutes and the greatest confusion prevailed. A number of guests on the lower floors succeeded in groping their way down stairs in the smoke and escaping with nothing but their night clothes.

Scores of others were rescued by firemen and others from the upper windows, where, panic-stricken, they shrieked for succor and threatened to jump to the sidewalk below.

At 4 o'clock the fire was completely under control, and the hotel management says that to the best of its knowledge all the guests and help have been accounted for.

The worst injured are Gus English of Anaconda, whose legs were broken in jumping from a window, and Joe Devine, who was cut and bruised in jumping from the fire escape. A number of others sustained trivial injuries.

The interior of the hotel, which for many years had been the leading hostelry of Butte, is ruined, and Hugh Wilson, the lessee of the building, estimates his loss at $90,000.

The boiler explosion at Guthrie, Wis., occurred at the White creamery instead of the Russell creamery as was stated in the Gazette This creamery has been owned and operated by Wm. Boetcher for seven years and he has made a pronounced success of it.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle.

Special Train Excursion to Geneva Lake via C. M. & St. P. Ry.

Wednesday, July 17th via Walworth Electric line and steamers under auspices of the Congregational, Baptist, Presbyterian and Methodist Sunday schools, special train will leave at 8 a. m. over the new line of C. M. & St. P. Ry. Returning leaves Walworth at 6:15 p. m. Rate for the round trip only 75 cents.

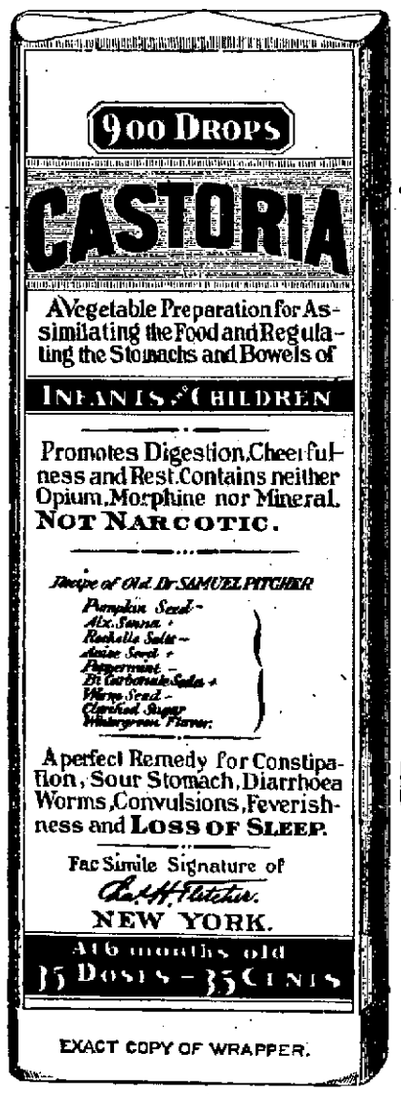

Headaches, dizzy spells, bad blood, rheumatism, indigestion, constipation, absolutely cured if you take Rocky Mountain Tea made by Madison Medicine Co. Smith's pharmacy.

Half the ills that man is heir to comes from indigestion. Burdock Blood Bitters strengthens and tones the stomach, makes indigestion impossible.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Eclectic Oil relieves the pain instantly. Never safe without it.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

Itching piles? Never mind if physicians have failed to cure you, Try Doan's Ointment. No failure there. 50 cent, at any drug store.
